

**DATE: April 18, 2016**  
**RE: Co-Sponsor the Living Donor Protection Act - H.R. 4616 & S. 2584**

Dear Member of Congress:

On behalf of the more than 120,000 individuals currently awaiting a lifesaving donor organ, our organizations respectfully request your consideration in cosponsoring S. 2584 & H.R. 4616, the **Living Donor Protection Act**. This important legislation would have a significant positive impact at the local and national levels, allowing more individuals to serve as living organ donors without the fear of job loss or discrimination.

The **Living Donor Protection Act** seeks to protect living organ donors and promote organ donation in three ways:

- 1) Prohibits life, disability, and long term care insurance companies from denying or limiting coverage and from charging higher premiums for living organ donors;
- 2) Clarifies that living organ donors may use FMLA time to recover from the surgeries and procedures involved in their donation; and
- 3) Directs HHS to update their materials on live organ donation to reflect these new protections and encourage more individuals to consider donating an organ.

The bipartisan & bicameral legislation was introduced recently by Senators Mark Kirk (R-IL) & Kirsten Gillibrand (D-NY) and Congressmen Jerrold Nadler (D-NY) & Michael Burgess, MD (R-TX).

Thank you in advance for your consideration of our request to cosponsor the **Living Donor Protection Act**. This important legislation will further remove policy barriers and disincentives for those individuals seeking to provide a lifesaving donor organ to another human being.

Please do not hesitate to contact any of our organizations directly if you have questions or require any additional information.

Sincerely,
