

Now through April: Program directors and faculty can get ABIM MOC points for QI in GME

American Board of Internal Medicine (ABIM) is sharing some good news that effective immediately, program directors are able to receive 20 Maintenance of Certification points in Practice Assessment for the quality improvement (QI) work they undertake in their roles as GME educators. Additionally, faculty who are involved in meaningful GME-related QI activities in your program can also receive 20 MOC points, with your annual attestation.

Submit **now through 4/30/18** to receive your MOC points and attest to your faculty's 2017 QI participation. Here's how:

- First, look up and jot down the six-digit ABIM IDs for your eligible faculty using the ABIM [Check a Physician's Certification](#) feature on ABIM's website.
Note: To search, you must use exact spelling of their full name. For example, search "Richard" instead of "Rich".
- Next, sign into FasTrack via ABIM.org. ABIM launched a new abim.org on January 8 and now offer single sign on between ABIM.org and FasTrack. Therefore, as a board certified physician, you now have two ways to sign into FasTrack:
 1. If you want to **sync up your ABIM.org and FasTrack accounts** and use the same sign in credentials on both, [sign in](#) using the credentials you reset after ABIM's January site launch and click the SIGN IN button on the right of the screen. Or, if you haven't updated your credentials since the January launch, [sign in](#) using the UPDATE NOW button on the left of the screen to do so. If you need assistance with updating your credentials, please email request@abim.org.
 2. If you would rather **keep your ABIM.org and FasTrack accounts separate**, you can [sign in](#) by entering the email and password credentials you have always used for FasTrack and click the SIGN IN button. **This is also how program administrators will continue to sign into FasTrack.**
- Once signed in, select the MOC for QI link in the top right hand corner of the page
- Enter your ABIM ID to receive your credit and enter the ABIM IDs of those faculty
 - The list will automatically populate the first and last names for each ABIM ID entered
 - Once submitted, the MOC points will be granted so please check your list carefully
- Hit submit to complete your attestation form

Once you complete these attestations, the information will be prepopulated in future years, saving you time. Moving forward, you can plan to do these attestations at the same time you complete your trainee attestations in FasTrack. Credit for QI participation in 2018 will be available this coming July.

ABIM wants your feedback so it can improve this attestation process! Please send any comments or concerns to academicaffairs@abim.org.
